

L C F - 2 8 8 L O U D S P E A K E R

The E-coustic Systems LCF-288 is a purpose built three-way loudspeaker designed to be mounted on the top of wooden beams in houses of worship. It utilizes the LCF-399 coaxial speaker combined with an 8" full range device that utilizes a separate crossover network to deliver greater overall power. The enclosure is designed to create minimal visual impact when installed.

LCF-288 LOUDSPEAKER
